D.Information Technology | M.Sustainable Energy | B.Engineering

Professional Profile

Currently studying to become a Full Stack Developer at Coder Academy, in Brisbane.

I am a passionate and driven individual, who is excited about entering the tech world. I love to be challenged and I'm always looking to increase my skill set. Since beginning in tech I've enjoyed going to meetups and branching out with the tech community.

My career, to date, has encompassed several vacation and graduate opportunities in the field of engineering, along with significant retail experience. I have worked and travelled overseas and in WA and Queensland which has provided me with a high level of comfort and capability in flexibility and adaptability.

Hard Skills

- JavaScript | React | Vue | TypeScript |
- Ruby on Rails | Ruby
- HTML | CSS | TailwindCSS
- Trello Board (Project Planning)
- Figma (Wireframes)
- LucidChart (Entity Relationship Diagram)
- Technical writing capabilities

Soft Skills

- Organised | Outcomes focussed | Objective
- Adaptable | Self-motivated | Proactive attitude
- Continuous improvement | Increased efficiency
- Outstanding work ethic | High integrity
- Calm | Respectful | Reliable | Responsible
- Team player | Autonomous achiever | Contributor

Projects

The assessment component at Coder Academy involves a number of projects in the languages learnt. The following are just some of the projects completed;

- The Shopping Trolley Game: Maths game aimed at children written in Ruby.
- Portfolio Website: My Portfolio written in HTML and CSS. Hoping to convert into React in the near future.
- CheckMate: Two-sided Marketplace application to provide a virtual tutoring for keen chess players. This was written with Ruby on Rails and TailwindCSS.

Qualifications

- Diploma of Information Technology, Coder Academy, 2020
- Masters of Sustainable Energy, University of Queensland, 2018
- Bachelor of Engineering (Ocean Engineering), University of Tasmania, 2011
- Construction White Card, 2009
